## World Water Day 2016 celebrated at local campuses this week

Student-organized events, films, and presentations celebrate WATER at University of Minnesota Duluth and Lake Superior College

DULUTH, MN – University of Minnesota Duluth and Lake Superior College are celebrating World Water Day during the week of March 21 – March 24. A series of student-sponsored events, films, tabling, and panel discussions will help raise awareness about the importance of fresh water and of Lake Superior being a source for the area's drinking water.

UMD students are hosting a #WaterFacts and #WorldWater social media competition to raise awareness and give away water-themed prizes. The students in the UMD chapter of the Minnesota Public Research Interest Group will table on Tuesday and Thursday with information about local water issues, giving away buttons, hosting a water-themed game, and encouraging students to pledge to avoid bottled water.

Lucky students at LSC can stop by to exchange any empty single-use plastic bottle for a free aluminum "Superior" bottle, and add to a "bottle chain display".

For more information on campus events, see: [www.d.umn.edu/sustain](http://www.d.umn.edu/sustain)

### **Public Events celebrating World Water Day**

*All films and events below are free open to the public*

Monday, March 21, UMD Planetarium, 6:00 PM

- The UMD American Indian Science and Engineering Society hosts an open house at the UMD Planetarium. At this event, Mickey, Mni, Nibi, Jim Rock

will present on Indigenous perspectives surrounding water. Refreshments will be served.

Wednesday, March 23 in Chemistry 200 at UMD, 7:00 PM
